

Pipeline Purple Professional Beer Line Cleaning Powder

Pipeline Purple Professional Beer Line Cleaning Powder is the solid version of our highly-concentrated professional-strength alkaline beer line cleaner with built-in solution status indicator. Dilute and use immediately for spectacular results even on severely soiled lines. Readily soluble for quick and efficient application. Changes colour when the line is dirty so you can be absolutely sure of a hygienically clean finish with long-lasting effect. Safe to use on all types of line materials, pipes, meters, pumps, beer engines, taps and fittings if used in the prescribed manner. Contains no caustic soda. Reduces the carbon footprint by minimising packaging materials and shipping volumes.

PRODUCT SPECIFICATION	
Name:	Pipeline Purple Professional Beer Line Cleaning Powder
Product Code:	D-PPBLCPO.05K
Product Size	50 g
Packing Quantity	120
Packing Size (L x H x D)	(32.5 x 22 x 25) cm
Shipping Weight	6.96 kg
Shipping Volume	0.018 m ³

This product is also available in a 100 g sachet

How to use

Dilution Rate: Each sachet contains a pre-measured amount producing 5 litres of cleaning solution to be used for regular cleaning regimes. It is extremely effective on dispense systems that may be severely soiled or have been neglected.

Cleaning: Switch off coolers. Use a pre-measured sachet(s) of Pipeline Purple Professional Beer Line Cleaning Powder for the correct dilution. Make up the cleaning solution in a plastic or stainless-steel container or cleaning vessel with cold or warm water (<40°C). IMPORTANT Pre-fill the cleaning vessel with a minimum of half a litre of water per 50 g sachet, keep the water flowing and gently sprinkle in the powder. Once the powder has completely dissolved, pump solution through the dispense head into a white plastic receptacle such as a Pipeline Bucket until emergent solution is purple. Soak for a minimum of 10 minutes then draw a full line of the discoloured fluid until purple colour is evident. Repeat the process until purple colouration is stable throughout the dispense system.

Rinsing: Pump fresh cold water through to disperse all the purple fluid followed by a further litre of water. Verify the purity of this water using Pipeline Rinse Water Test Papers: Dip paper under the running water. If there is a trace of Pipeline Purple Professional Beer Line Cleaning Powder in the water, the test paper will turn purple. If the paper stays pink no cleaning solution remains and rinsing is complete. Switch coolers back on. Reconnect the dispense product.

Pipeline Purple Professional Beer Line Cleaning Powder - UN3262 CORROSIVE SOLID, BASIC, INORGANIC, N.O.S. (Potassium hydroxide) 8, II, (E)

DANGER – Causes severe skin burns and eye damage. Harmful if swallowed. Toxic to aquatic life with long lasting effects. Contact with acids liberates very toxic gas.

PRECAUTIONS – Never add water to dry product. This may generate heat. Follow the instructions and dilute by pouring product into water. Keep out of reach of children. Do NOT breathe dust. Wear protective gloves/protective clothing/eye protection/face protection.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Get immediate medical advice/attention.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical advice/attention if you feel unwell.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. If skin irritation occurs: Get medical advice/ attention. If medical advice is needed, have product container or label at hand.

Contains: Potassium Hydroxide

UFI: PKKW-HG5M-6AA7-925J
